On August 3, 2013 a coalition of non-federally recognized Native American tribes in Northern California had a meeting to discuss Draft Rule - 25 CFR 83. Many of the interested parties in the above meeting only became aware of the draft revisions in late July 2013 and believe there should be an extension on the comment period.

On page 5 - 83.10(g) Expedited Favorable finding -On bullet point 3, it is not mentioned what a full evaluation by the OFA would involve.

The federal recognition process is viewed by many Native - Americans as a form of bureaucratic genocide.

Thankyou
Best Regards,
